

DATA TYPES

You can use custom fields in the Floify web application as well as the API.

You can store a single data point using a built-in data type. Built-in data types are listed below.

Built-in Data Types

Built-in custom data field types include:

- File (maximum size 25 MB)
- Checkbox (boolean)
- Multiple Checkboxes (as a related group — maximum 8 checkboxes)
- Radio Buttons (maximum 8 radio buttons)
- Single-Line Input (maximum 250 characters)
- Multi-Line Input (maximum 10 KB characters)
- Date (no time component)
- Timestamp
- Picklist (enumeration — maximum 100 items)
- Multi-Selection Picklist (multiple items can be selected at once, maximum of 100 total items in the picklist)
