

BUILT-IN FIELDS

Floify includes familiar built-in fields that can be access via these API endpoints.

Supported built-in fields are as follows. Use the Field Name when using the Custom Field API to read and write fields. The Field Label is used in user interfaces displayed to users.

Field Label	Field Name
Borrower Full Name	borrowerFullName
Co-Borrower Full Name	coBorrowerFullName
Loan Name	loanName
Loan Owner	loanOwner
Milestone	milestone
